PRODUCT DESCRIPTION

The Neolt EFTS320 is a 126 trimmer that can cut rigid foam board up to 1.26 or Sintra boards up to .51 in thickness. The operator may select from four pre set cutting depths or have it automatically set to their needs. Up and down motor control is used in making bi directional cuts, and it even includes a panic stop button, which halts all operations in case of emergencies. A variable head cutting speed control is provided for making more precise cuts. To accurately align materials, the Laser Designator system shines an intense beam of light across the cutting line. Oversized left and right lateral extensions are available.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Voltage	110 volts
Max. Cut Thickness	1.26 in.
Max. Paper Cutting Length	122 in.

DIMENSIONS

Weight:	550.00 lbs.
Width:	35.00 inches
