PRODUCT DESCRIPTION

The FMC TJ 2 124153 B Paper Jogger is a large capacity twelve bin tilted jogger that aligns large loads of cards, checks, and stock at one time. The FMC TJ 2 124153 B Paper Jogger applies friction through small, vertical vibrations to separate sheets to be run through modern high speed sorters. The FMC TJ 2 124153 B Paper Jogger easily reduces the jam rate of checks and tab cards once inserted into the next step of their paper processing life cycle. The FMC TJ 2 124153 B Paper Jogger quickly aligns material prior to stuffing and envelope sealing. An optional floor stand model is available at an additional cost.
