PRODUCT DESCRIPTION

FMC Corp. Syntron J 50 B 14 x 20 INCH Flat Deck Paper Jogger The FMC J 50 B Flat Deck Paper Jogger is specially designed for the newspaper magazine industry to align and separate prior to bundling. Its flat tray rack lies horizontal and is manufactured out of a durable, maple wood material for long lasting service. The FMC J 50 B Flat Deck Paper Jogger aligns paper, checks and or mail with a plastic or cardboard transit tray, but needs operator assistance to hold the paper in place. The rack is 23 x 29 long for holding large capacity bulk printing material and small boxes. Boxes can be jogged leaving more room to pack in material. Its double action easily aligns loads of stock weighing up to 50 pounds in preparation for cutting and trimming operations, or prior to collating and folding. For more than half a century, FMC Technologies has manufactured Syntron vibrating paper jogggers to meet the varied needs of business and industry. Our versatile line of jogggers aerates, aligns and settles paper stock, checks, newspapers, mail, inserts, magazines and catalogs. They are also used by the packaging industry to settle contents of food packages prior to shipping, for circuit testing, electrical and mechanical pack tests and other product testing. Syntron paper jogggers are found throughout the world in newspaper operations, banks, printing shops, post offices, catalog operations, mailrooms, offices, binderies, label manufacturing operations, department stores and computer operations. They come in a variety of models for any size job. Well known in industry, Syntron paper jogggers feature Fast and Efficient Operation with Adjustable Control Advanced Electromagnetic Design eliminates overheating concerns Proven Reliability Simple Operation, No Special Training Required Self cleaning Most Units UL Listed and CSL Certified CheckMate
