PRODUCT DESCRIPTION

The GBC Q8500 Electronic whiteboard has the ability to interface with the PC in real time using its 48 X 36 inch surface area. Images and notes can be edited, saved, and printed as often as desired. Notes written on the whiteboard can be saved directly to your PC where they can then be faxed or e mailed. Remote participants at multiple locations can view your whiteboard presentation in real time. Perfect for projecting computer images, graphics, charts, and words onto a large screen to share with a large audience. The Idea Share Board side bar allows easy scrolling and printing of current images. Change and choose colors by with the touch of a button. Erase large or small areas with the touch of a button. Must have a PC with 486 33MHz or higher running Windows 95 or better. System includes electronic pens, electronic and standard erasers, dry erase markers, stylus, accessory tray, software, power supply and USB cable.
