### PRODUCT DESCRIPTION

FMC J 1 64475 J 7 x 10 Inch Flat Deck Paper Jogger The FMC J 1 164475 J Paper Jogger is a small, portable jogger equipped with a durable plastic deck. The FMC J 1 164475 J Paper Jogger can jog a maximum of 10 pounds of paper cards or other stock at one time. The stock must be operator held while jogging on one edge, then turned to jog the other edge. The FMC J 1 164475 J Paper Jogger is ideal for packaging applications and settling contents of packaged items. Once jogged, more bulk material can be added into a box to fill the contents to its maximum capacity. Shipping and handling are additional. For more than half a century, FMC Technologies has manufactured Syntron vibrating paper joggers to meet the varied needs of business and industry. Our versatile line of joggers aerates, aligns and settles paper stock, checks, newspapers, mail, inserts, magazines and catalogs. They are also used by the packaging industry to settle contents of food packages prior to shipping, for circuit testing, electrical and mechanical pack tests and other product testing. Syntron paper joggers are found throughout the world in newspaper operations, banks, printing shops, post offices, catalog operations, mailrooms, offices, binderies, label manufacturing operations, department stores and computer operations. They come in a variety of models for any size job. Well known in industry, Syntron paper joggers feature Fast and Efficient Operation with Adjustable Control Advanced Electromagnetic Design eliminates overheating concerns Proven Reliability Simple Operation, No Special Training Required Self cleaning Most Units UL Listed and CSL Certified CheckMate Units are UL CUL Certified Weight 21 lbs
