### PRODUCT DESCRIPTION

Acroprint Boss 12 Volt Battery Operated Time Clock BP125 12 The Acroprint Model BP125 12 is a battery powered time recorder designed for locations where AC power is unreliable or unavailable. Except for the power options it is functionally equivalent with the Acroprint Model 125 time recorder. Model BP125 12 is powered by 12VDC battery and wiring harness not included . Perfect for mobile operation using power from a car or truck battery Model BP125 12 at a glance Practical three power options are available battery operated, AC power with rechargeable battery backup, and 12VDC powered. Dependable designed to provide years of trouble free service. Carries a lifetime typewheel guarantee, and 1 year warranty for the rest of the materials. Economical uses widely available standard time cards. Automatic ribbon feed and reverse insures long ribbon life. User friendly issues a warning beep to let you know when the battery power is running low. A warning light indicates if the batteries have been incorrectly installed. Versatile offers custom print registrations to meet specific applications. Month typewheel available in English standard or Spanish. Other BP125 Power Configurations Model BP125 6 is powered by four 4 standard alkaline D cells batteries not included . Ideal for areas with no AC power, or for mobile operation. Model BP125 R6 is powered by 125VAC 60Hz and will operate for several days on four 4 standard rechargeable D cells included even when the electricity is off. Batteries automatically recharge when power is restored. Excellent for areas where AC power is unreliable. The Model BP125 battery powered time recorder accepts standard time cards. A push bar located on top of the clock activates a sturdy spring print mechanism for instant registrations. This model comes with a large, easy to read analog clock face and a durable case. Model BP125 time

### PRODUCT SPECIFICATION

Voltage 110 volts

### DIMENSIONS

Weight: 12.00 lbs.  
Width: 8.75 inches  
Length: 6.50 inches  
Height: 10.25 inches

clocks offer a variety of typewheel configurations and so are suitable for time and attendance tracking, job costing, time and date recording and many other applications. For optimum battery life, use the BP125 at temperatures between 40F and 110F. Operation at lower temperatures may shorten battery life. Made in the USA.
