PRODUCT DESCRIPTION

Hedman Co. Continuous Form Check Signer EDP 2000 The Hedman EDP 2000 is a continuous form check signer with dependable security and easy operation. It can handle documents from 2 to 17 wide and 3.5 to 7 long. Security features include dual key locks, tamper proof screws, non resettable counter, etc. Optional tri color ink rolls are available for added security. A signature form used to engrave the signature plate will be sent upon purchase. Signature plates are not included in the unit price and the cost varies depending on the number of signatures and optional security features if any that are required. Security Features Dual key lock controls provide maximum security for the imprinting function. Signature cover lock guards against unauthorized usage. Non resettable display audit counter maintains accurate running count of all processed checks. Resettable batch counter automatically counts each signed check for accurate batch totals. Optional tri color ink rolls adds security to each impression. Tamper proof screws. Easy to use Transport keeps continuous forms securely aligned. Automatic alignment assures accurate imprint location. Signs 240 checks a minute counts, stacks and secures them in one easy process. Easily adapts to checks in various weights with vouchers on the top, bottom or side. Signature selector locks in position for 3.5 conventional checks or 7 voucher style check signing. Side by side dual signature system available. A variety of imprint designs can be utilized, from signatures to seals, with an assortment of backgrounds and text for any application.
