PRODUCT DESCRIPTION

The MBM 2602 SC 14 strip cut shredder features a higher speed, continuous duty motor that protects against overheating. For added protection, the break resistant feeding table folds up to form the machine cover when not in use. Its wide 10.25 inch throat handles up to 27 sheets at one time, cutting paper down to .25 inch shreds. The three position rocker switch allows the user to toggle from start stop reverse at the operators discretion. It comes equipped with a flap for non confidential waste, so a separate garbage receptacle is not required. The cutting mechanism of the 2602 SC 14 is unaffected by paper clips and staples. The optical indicator lights notify the user when the bag is full or the door is open. Its cabinet comes on casters so it can be easily moved from office space to office space. Storage rack for EDP print outs is optional.
