PRODUCT DESCRIPTION

The Ribao BC 100 UV currency counter with ultra violet counterfeit detection designed for individuals and small business users is equipped with a micro computerized mechanism that allows for accurate and high speed counting. This currency counter has the ability to add and create denomination batches. It is specifically designed to count pre sorted bills sorted by denomination in bulk to reduce the time and losses due to human error. This currency counter counts up to 1000 currency bills per minute as they enter the machine via its accurate roller friction feed system and includes a modern electronic system capable of counting, count adding and count continuation. The Ribao BC 100 UV currency counter easily creates batches for bundling or storage. The chassis has a retractable handle and can easily be moved around the office.
