PRODUCT DESCRIPTION

The MBM DestroyIt 2250 SC strip cut shredder, built with a quiet cutting head to reduce noise, shreds up to 8 sheets of paper at a time, including staples and paper clips. The photo cell sensor automatically starts and stops the shredder making it useful for one hand paper insertion and shredding. In addition to the automatic stop, a three position rocker switch enables the user to maneuver between stand by, stop, and reverse settings, allowing paper jams to be cleared easily and efficiently. The 2250 SC paper shredder has an attractive pearl gray colored cabinet with swing door helps to quickly remove shredded material. An electronic door safety switch keeps the door from coming ajar when the machine is in use.
