PRODUCT DESCRIPTION

The MBM DestroyIt 4003 CC 332 is a high security, cross cut shredder with foot pedal that pushes down to compact waste material. Features include an automatic start stop via photo cell sensor and stand by switch for energy conservation. The rocker switch allows the user to maneuver between forward, stop, and reverse functions. The cross cutting head accepts staples and paper clips with ease. The machine automatically stops when the door is opened or the bag is full, enabling the waste bag to be changed. The continuous duty motor and thermal overload switch protects against overheating; providing long term operation. This machine has the Department of Defense approved shred size 3 32 x 5 8 for high security shredding of confidential material. An EDP computer forms rack and sound covers are available for additional purchase.
