PRODUCT DESCRIPTION

ERC 30Auto Sensing Power, Six Speed, 2 Year Warranty Currency Counter ERC 30 The Model 30 advanced Currency Counter counts pre sorted currency and some types of tickets, coupons and labels. The ERC 30 is our best value in a high speed extremely accurate currency counter. This unit will count at multiple speeds and can be set for batching deposits. The Model 30 Currency Counter is intended for business and financial institutions counting 750,000 bills per day or less. The Model 30 Currency Counter has six counting speeds of 500, 600, 700, 1000, 1200 and 1500 bills per minute. When using the ERC Model 30 Money Counter as a coupon counter, label counter or to count old and worn bills, slower speeds can be more accurate. The slower speeds can also be used to break the ink between new bills which makes the new bills easier to handle and to do a visual verification that bills of each denomination are correctly sorted. The LED enhanced operation panel includes a three digit batch read out, a four digit count display and an auto sensing power supply for use any place in the world. The Model 30 comes with a TWO YEAR WARRANTY Parts and Labor.

PRODUCT SPECIFICATION
