PRODUCT DESCRIPTION

The Ribao BC 100 MG UV Currency Counter is designed for individuals and small business users. This currency counter is equipped with ultra violet and magnetic counterfeit detection technology and a micro computerized control mechanism that allows for accurate, high speed counting. This model is specifically designed to count pre sorted bills, tickets, coupons and labels in bulk to reduce the time and losses due to human error. It counts up to 1100 currency bills per minute as they enter the machine via its accurate roller friction feed system. The BC 100 MG UV currency counter comes with a modern electronic system capable of counting and adding currency bills. It easily creates batches for bundling or storage. The chassis has a retractable handle and can easily moved around the office.
