### PRODUCT DESCRIPTION

The BC 110 Currency Counter makes precisely counting money less tedious and time consuming. Save time and labor with the BC 110 money counter. BC 110 cash counters can accurately count up to 1,100 bills per minute and have a hopper capacity of 200 bills. This currency counter is capable of doing three digit batch counting and continuous counting. The BC 110 series of money counters are available as stand alone counters or can double as counterfeit money detectors also with optional UV ultraviolet, fluorescence and or MG magnetic counterfeit bill detection features. Authentic paper bills, under ultraviolet rays, absorb the UV light and show special marks made with fluorescent ink. Counterfeit bills will reflect the UV light, triggering the UV sensors. Small magnetic fields in paper currency and paper currency ink produce can be read by the magnetic sensors. BC 110 Currency Counters are designed for individuals and small business users. This cash counter is equipped with a micro computerized control mechanism that allows for accurate, high speed counting and is specifically designed to count pre sorted bills, tickets, coupons and labels in bulk. It counts up to 1100 currency bills per minute as they enter the machine via its accurate roller friction feed system. The BC 110 currency counter comes with a modern electronic system capable of counting currency bills, and a digital display that can rotate 90 degrees to accommodate easier viewing in various office work area environments. It easily creates batches for bundling or storage. The chassis has a retractable handle and can easily be moved around the office.
