PRODUCT DESCRIPTION

Hedman Co. Electronic Check Audit System with Check Protector Signer HE 1600 The Hedman HE 1600 is a electronic 12 digit check writer with advanced features. Amounts are printed with unique, double height numerals designed to stifle alteration. Special prefix and suffix imprints prevent additional numbers from being inserted and account and signature suppression limits improve manager s control over high amount disbursements. Three different reports list, summarize and total all transactions for simplified reconciliation. Handles up to 4 different accounts and can void checks and subtract amounts from disbursement balance.

FEATURES Security Features Amounts are printed on checks where the amount of a check is usually written out with unique, double height numerals that prevent alteration. No number is placed on the right side of a check next to the sign. Regular or Reverse imprints further secure the amount imprint. Special prefix and suffix imprints prevent additional numbers being inserted. Custom prefixes available for added security and control at additional cost.. Prints the Date on check. Triple key lock control prevents unauthorized access to general operation, executive functions and signature eprom. Programmable Password option provides added security against unauthorized usage and detailed audit control. Unique Void Over statement further enhances amount security. Programmable Check Number option improves document reconciliation. Account and signature suppression limits improve managers control over high amount disbursements. Multiple signature format, titles, logos and security backgrounds available. Signature is additional. Easy to Use Fluorescent display guides operators, speeds processing, eliminates errors and prevents check waste. Process documents for 4 separate disbursement accounts, allowing
