### PRODUCT DESCRIPTION

Hedman Co. Electronic Check Audit System HE 1500 The HE 1500 is an electronic programmable check writer with three different reporting systems. Operator Reports for easy balancing, Executive Daily Report sequentially details every transaction, Executive Summary Report summarizes transactions by operator and account. Programmable Password option provides added security against unauthorized usage and detailed audit control. Regular or Reverse imprint designs further secure the amount imprint and amounts are printed with unique, double height numerals designed to stifle alteration. Easy to use LCD display guides users for easy operation. Processes checks for four separate disbursement accounts, even if each account uses a different size or style check. Three different reports summarize and total all transactions for simplified reconciliation.

1. Operator Reports for easy balancing
2. Executive Daily Report sequentially details every transaction
3. Executive Summary Report summarizes transactions by operator and account

System is easily programmed to print amounts and dates virtually anywhere on single or multi part forms up to 9.5 Width x 16.5 Inches Length 24.1 cm x 41.9 cm FEATURES Security Features Amounts are printed with unique, double height numerals that defeat alteration. Regular or Reverse imprints further secure the amount imprint. Special prefix and suffix imprints prevent additional numbers being inserted. Custom prefixes available for added security and control. Dual key lock controls and executive passwords prevent unauthorized access to general operation, executive functions and prefix eeprom. Programmable Password option provides added security against unauthorized usage and enables detailed audit control. Unique Void Over statement further enhances amount security. Programmable
