PRODUCT DESCRIPTION

The Model 10 Currency Counter is designed for individual or very small business use in countries that require 240 volt electrical service. The Model 10 240 volt Currency Counter is equipped with a micro computerized mechanism that allows for accurate and high speed counting and batching functions. The Model 10 Currency Counter is specifically designed to count pre sorted bank notes in bulk to reduce the time and losses due to human error. The Model 10 Currency Counter counts up to 1000 notes per minute as they enter the machine via its accurate roller friction feed system. The Model 10 Currency Counter comes with a modern electronic system capable of counting and adding banknotes. The Model 10 Currency Counter easily creates batches for bundling or storage. The chassis has a retractable handle and can easily moved around the office.
