PRODUCT DESCRIPTION

ISP's Rapid 105 and 106 Electric Staplers are compact, portable, lightweight, automatically operated electric staplers designed for light duty work with paper, thin boxboard, and lightweight packaging materials. The 105 model is used exclusively for flat, table applications. The 106 model can handle both flat or saddle applications. These units operate with a throat depth of up to 4 inches. And, these units staple up to 40 sheets of 20 lb. paper using an automatic work trip or by actuating a foot pedal. Because the 105 and 106 models are narrow, up to 4 like units can be mounted on an optional work platform interconnected with cables for applications that require multiple inline stapling requirements. Through the use of a foot pedal, stapling actuation is simultaneous for all mounted units.

PRODUCT SPECIFICATION

Throat Depth	4 in.
Max. Sheet Capacity	45 sheets
Staple Head	Electric
Staple Magazine Capacity	210 quantity

DIMENSIONS

Weight:	31.00 lbs.
Width:	10.00 inches
