PRODUCT DESCRIPTION

The Oztec 1675 OHC has a continuous duty motor that is best suited for mass production shredding. The bag frame uses extra large shred bags for greater capacity. Bailers, large boxes or carts fit easily beneath the machine to catch the shredded material for efficient disposal. The 1675 OHC features a key lock system that prevents unauthorized use. Other features include re set switch, Quick Stop button and a visual indicator light that keeps the user informed of operations. No end user maintenance is needed. This model comes equipped with an open stand for waste containment.
