PRODUCT DESCRIPTION

The GBC 5260X high security paper shredder is perfect for a department or small company. Features include automatic on off setting, bag full shut off, and automatic stop when the bag is full or if paper jams. Separate indicator lights keep the user informed of all operating functions. The large 32 gallon shred bin combined with cross cut bulk reduction allows for less frequent bag changes. The 5260X shredder also has a separate flap for non confidential waste, so a separate waste bin is not needed. An optional EDP computer forms rack provides easy feeding of form documents.
