PRODUCT DESCRIPTION

This Item has been DISCONTINUED But The Entire Current Martin Yale Line CAN be found on this Site. The PacMaster converts ordinary corrugated boxes into padding material for packaging. The corrugated boxes are simply cut to the required format in the preliminary cutter. The working surface has standard size guides marked on it and along with the sliding guide, accurate cutting is guaranteed. The strips prepared in this way are fed into the PacMaster inlet, where special patented cutting shafts turn them into bulky packing mats. Economical and reliable the special PacMaster technique converts empty corrugated boxes, which previously cost money to dispose of, into free large volume filler material suitable for packing even sensitive goods for transport. The PacMaster is very simple to operate. Its lockable main switch also acts as an emergency stop and it has a rotary knob to control On Off and reverse functions.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Voltage	115 volts
Max. Stock Thickness	.75 in.
Cutting Width (in.)	16.75 in.
Motor Strength	2 hp

DIMENSIONS

Weight:	441.00 lbs.
Width:	24.50 inches
Length:	19.50 inches
Height:	40.12 inches
