PRODUCT DESCRIPTION

Designed specifically for the large format and presentation graphics industry, the Excalibur vertically cuts sheet materials any length up to 63 inches high while providing the ultimate in space saving convenience. The Excalibur is so easy to operate that it can be mastered within minutes. The Excalibur delivers accurate, fast cutting with square clean cuts to the correct size everytime, whether for one off jobs or full production runs. All cutting heads are mounted on a sliding head, ready for instant selection and use. The top Twin Wheel Cutting Head is for cutting hardboard, masonite, MDF up to 1 8 thick and Dibond up to 3mm thick. The Excalibur cutter is an ingenious, indexed turret mounted on sliding head that turns to lock any one of the three cutting tools in its selected position, quickly, with no screws or tools.

PRODUCT SPECIFICATION

Max. Paper Cutting Length	63 in.
Max. Cut Thickness	.5 in.

DIMENSIONS

Weight:	80.00 lbs.
Width:	84.00 inches
Length:	12.00 inches
Height:	96.00 inches

PRODUCT FEATURES

'A' frame construction for rigidity and to help direct all cutting forces downwards through the legs.

A clear acrylic rule runs along the full length of the cut line, allowing perfect positioning of the work to be cut.

A single thumbscrew quickly and permanently adjusts the Excalibur perfectly square at the time of installation.

Ability to add a Twin Wheel Cutting Head. This cutting head can be added for shearing 1/8in. uncoated masonite, heavy mat board, 3/8 in. sintra & 3mm dibond.

Can be mounted against a wall or in the centre of a room using the optional free standing kit enabling the machine to be installed in the most efficient workshop location.

Cutting accurately to pencil lines, registration

marks or the edge of a mounted image couldn't be simpler.

Cutting to size is made easy using the two adjustable production stops.

High performance linear bearings precisely control the sliding head(s) on a smooth rigid slideway to give square cuts every time.

Lockable telescopic legs for perfect individual working height.

Unique one piece squaring arm for easy installation and guaranteed straightness along the entire length.
