PRODUCT DESCRIPTION

The Widmer 776 E embosses a raised seal on to a document while at the same time prints a combination of signature, title, state and custom text messages in one easy step. The 776 E embossing machine also offers single or tri colored ink for the signature and text. The activation trigger responds to the document inserted into the machine no buttons to push or levers to pull. The single step embosser dater signer satisfies a broad range of applications. It can sign, validate, certify and date university and college transcripts, birth and marriage certificates and offer a one step solution to many municipal, county, state and national government agency applications. Iron cast upper and lower casing ensures stability and long life. Also available for 220 voltage.
