### PRODUCT DESCRIPTION

The DZ 280C vacuum packaging machine is designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor and a operator controlled digital control panel. Vacuum cycle, seal temperature and evac cool down functions are adjustable on the control panel for many different vacuum pouch sizes. The DZ 280C vacuum sealing machine has a deep, narrow vacuum chamber designed for stand up packages. This configuration is especially suited for sauces and other non solid sealing requirements. With an 11 X 0.31 inch seal bar, it is possible to seal up to two pouches in one operation. The DZ 280C can be configured with an optional inert gas kit to aid in product shelf life. Plus, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set freshness markings. All Exodus vacuum chamber machines are heavy duty models designed for countless sealing operations. Other than periodic replacement of pump oil which is included with the unit, no other user maintenance is required.

### PRODUCT FEATURES

### PRODUCT SPECIFICATION

Chamber Length	11.81 in.
Chamber Width	3.54 in.
Chamber Depth	8.46 in.
Vacuum Sealing Bars	1 quantity
Vacuum Seal Bar Length	11 in.
Motor Strength	.50 hp
Voltage	110 volts

### DIMENSIONS

Weight:	50.00 lbs.
Width:	13.70 inches
Length:	19.60 inches
Height:	11.02 inches
