PRODUCT DESCRIPTION

ERC DZ 280C Stand Up Pouch Vacuum Sealing Machine The DZ 280C vacuum packaging machine is designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor and a operator controlled digital control panel. Vacuum cycle, seal temperature and evac cool down functions are adjustable on the control panel for many different vacuum pouch sizes. The DZ 280C vacuum sealing machine has a deep, narrow vacuum chamber designed for stand up packages. This configuration is especially suited for sauces and other non solid sealing requirements. With an 11 X 0.31 inch seal bar, it is possible to seal up to two pouches in one operation. The DZ 280C can be configured with an optional inert gas kit to aid in product shelf life. Plus, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set freshness markings. All Exodus vacuum chamber machines are heavy duty models designed for countless sealing operations. Other than periodic replacement of pump oil which is included with the unit, no other user maintenance is required. WARRANTY WARRANTY FOR VACUUM SEALERS ERC warrants to the original purchaser for a period of time from the date of shipment, that its VACUUM SEALERS will be free from defects in material and workmanship when used under normal operating conditions. The warranty for VACUUM SEALERS is three 3 months labor and twelve 12 months limited warranty on parts excluding wearables . Improper use and user maintenance requirements are not covered by product warranty. ERC agrees to repair or replace, at its option, any defective part or component covered by this warranty, provided there was no abuse and ERC must first receive written notice of a
