Acroprint ES1000 Atomic Payroll Recorder
FREE SHIPPING AVAILABLE ON THIS ITEM
The ES1000 is a totalizing Payroll Recorder With 100 Employee Capacity New and improved now featuring atomic accuracy The powerful ES1000 payroll recorder with atomic accuracy totals hours including overtime totals for up to 100 employees, with automatic break time deductions. ES1000 Atomic Payroll Recorder at a glance Accurate Automatic totaling saves time and eliminates clerical errors in processing payroll, while two color printing makes early and late punches easy to identify. Reliable The Atomic ES1000 automatically synchronizes with time codes transmitted by the National Institute of Standards and Technology and smoothly handles date changes and Daylight Saving Time adjustments. This time clock maintains correct time even during power outages, and allows full functionality up to 200 punches when equipped with optional Ni Cd battery pack. The ES1000 is flexible The clock prints in standard AM PM hours or 24 hour format with minute or hundredth increments, offers three day language selections and handles calculations using either exact or rounded time. You can mount the ES1000 on the wall or on a table for easy access by employees. Versatile The ES1000 can control signals for external bells and horns to signal break time or end of shifts. Accountable The clock is programmed with multiple reports, making tracking time easy. Choose from Hours Summary, Signal Summary, and Time Cards In Use. Easy and accurate payroll preparation The Atomic ES1000 has been redesigned to offer even easier set up and configuration than ever before, thanks to user friendly digital text displays to guide you through the set up process. This affordable time and attendance solution totals the number of hours that employees have worked. No need to spend time

Height:	15.00 inches

calculating hours by hand, employee hours are totaled automatically. Even overtime totals are easy to read, saving you payroll preparation time. Break time is automatically deducted and two color printing makes early and late punches easy to identify. Versatile options The powerful ES1000 payroll recorder handles up to 100 employees on a weekly, bi weekly, semi monthly, or monthly pay period, or you can choose a job costing option. This flexible clock can handle calculations using either exact or rounded time, and offers three language options English, Spanish or French. When you choose the bi weekly pay period, the clock prints the first week on the front of the time card and the second week on the back saving you money on time cards. The ES1000 is reliable, even when the power is out No need to worry about resetting this time recorder. The ES1000 is always on time, thanks to its atomic accuracy and internal battery backup. The ES1000 automatically forwards the month and year as needed and adjusts for Daylight Saving Time. With the optional Ni Cd battery pack, the time clock remains fully functional up to 200 punches even when the power is out This full featured totalizing time clock requires ES1010 time cards, and is designed for a professional office environment.
