### PRODUCT DESCRIPTION

PLEASE CALL FOR PRICING DFG DigiPerfect 1000 Perfect Binding Systems Hard Soft Cover Professional Book Binder Hardcover Book in 20 seconds Perfect Binding is a process where a machine uses a hot melt glue to bind the book block to a hard or printed wrap around cover. Perfect Binding is a premium product that has many applications. It is ideal for catalogs, self publishers, workbooks, and much more. Perfect binding has a premium appearance, but is less time consuming and more cost effective than mechanical binding. The quality engineered DigiPerfect 1000 is the latest release of the worlds best selling perfect binding systems 1,800 machines per year. DFGs user friendly DigiPerfect 1000 is ideal for short to medium on demand runs. It accepts both flat sheets and signatures, using a complete dual milling notching process. The DigiPerfect 1000 can bind up to 380 books per hour with a single operator. It can bind books from 2 sheets to 2 inches thick, and book length can be up to 16 inches. The DigiPerfect 1000 can easily make a professional HARD COVER book in 20 seconds. With this capability, you can open doors to new customers, and distinguish yourself from competitors. The industry standard grows more sophisticated every year, and you can be ahead of the competition with on demand hardcover binding. The DigiPerfect 1000 features 3 precision glue rollers, and it digitally controls glue application and speed. It successfully solves the book end glue overflow problem that happens on almost all small perfect binding machines. Eliminating this problem means you can apply the right amount of glue for any application and eliminate troublesome glue build up on the nipping station. The DigiPerfect 1000 utilizes DFG exclusive Ultra Square technology. The result is unbeatable quality that your customers demand. The whole time, you are
