### PRODUCT DESCRIPTION

Acroprint HP 1000 HandPunch 1000 Biometric Time and Attendance Terminal The Acroprint HP 1000 HandPunch 1000 Biometric Terminal is a hand geometry recognition terminal that verifies an employees identity in one to two seconds, based on the unique size and shape of their hand. The HandPunch 1000 is proven to be practical in businesses of all sizes. It eliminates the need for badges and time cards Employees must be present to clock in, this knocks out buddy punching. The highly accurate HandPunch 1000 Biometric terminals bring the convenience and security of biometric technology to time and attendance tracking. Acroprint s HandPunch 1000 has a 50 employee capacity expandable to 512 This Biometric Time Clock is so affordable that it makes card based systems seem obsolete. Employees clock in and out simply and quickly by entering their ID number and placing their hand on the HandPunch unit. The typical verification time is only one to two seconds The HandPunch 1000 is economical by eliminating paper time cards, badges, ribbons and clerical errors. HandPunch 1000 technology uses field proven hand geometry biometrics. Recognition is based on the size and shape of the hand. The system does not capture fingerprints or palm prints. Hand geometry is highly accurate, and is generally not affected by rings, small adhesive bandages, false fingernails and the like. Green and red lights notify the employee of the status of each punch. Now, HandPunch terminals are even better, with BioCote anti microbial technology that inhibits the growth of germs or bacteria on the platen between cleanings. The HandPunch 1000 is designed for single unit installations. All HandPunch terminals carry a one year warranty. All units include a 120V AC to 13.5V DC power supply and an installation and operation manual FEATURES BENEFITS

### PRODUCT SPECIFICATION

Digital Display	N/A quantity
Battery Backup	N/A sheets
Voltage	N/A volts
Auto Totals	N/A

### DIMENSIONS

Weight:	8.00 lbs.
Width:	14.00 inches
Length:	12.00 inches
Height:	19.00 inches

Saves money over card based systems  
Dramatically reduces payroll costs Easily  
integrates into existing network infrastructures  
Eliminates badges Eliminates buddy punching  
Fast and easy to use Comes standard with an  
Ethernet card Up to 100 users Platen also  
comes standard with a printed hand outline to  
ensure accurate hand placement while punching
