PRODUCT DESCRIPTION

The Cassida C100 Coin Counter No Longer Wraps Coins, ONLY SORTS COUNTS VALUE. For Coin Wrapping The New Cassida C200 Coin Counting Sorting Wrapping Machine Is Available Here Item 17215 Cassida C100 Coin Counter Sorter Lightweight and compact the Cassida C100 Coin Counter and Coin Sorter will smoothly integrate into your business setting thanks to its stylish design. Coin drawers are conveniently located at the front of the C100, allowing the machine to be used in the most space restricted environments. Easy to Operate Just fill the hopper which can take up to 1600 coins, and let the machine sort and count for you while you concentrate on more important tasks. Come back to find all your coins accurately counted and separated into individual drawers with a detailed report including the total counted value and the subtotal value of coins counted for each denomination awaiting you. Batching and Adding Any batch quantity from 0 to 500 can be individually set for each denomination. The Cassida C100 stops and alerts you when any denomination completes the preset batch. The denomination and the amount of coins counted will be displayed on the screen. Total counted value is automatically displayed on the screen as the machine counts, allowing you to stop the machine should you need a specific total value. Ergonomic Interface The C100 interface contains a clear, easy to read, multi functional 7 digit LED display with large buttons that make any coin processing task simple and comfortable. FEATURES Reports dollar value for each denomination Sorts each denomination into a separate drawer Automatically displays total value of all counted coins Individual batch setting for each denomination Automatic memory for batch setting Warranty 1 year full parts and labor warranty Lightweight and compact, with stylish design SPECIFICATIONS
