PRODUCT DESCRIPTION

Cassida Tiger 1300 UV MG Currency Counter with Counterfeit Detection The Cassida Tiger 1300 UV MG Currency Counter with Counterfeit Detection has the performance and features of a high end Currency Counter. With all metal chassis and an emergency stop feature, the Cassida Tiger rivals many of the commercial grade currency counters. Advanced Technology The Cassida Tiger Series Ultra Compact Currency Counters use the latest, essential technological advancements available in the industry, maximizing currency counting accuracy, plus half , double , chain , and narrow note detection. Time saving Automation The Cassida Tiger is equipped with an Auto Start feature which significantly reduces time in cash processing operations. Batching, counting, or adding automatically starts the moment bills are placed in the hopper. Reliable Design Now on its 6th generation, the Cassida Tiger design is the culmination of multiple advancements resulting in a very durable motor, compact design, and features found in more expensive models while remaining compact and economical for most commercial business money handling operations. The Patented Maintenance Design Articulated Top Cover provides easy access to friction and detection components for easy cleaning and maintenance. SPECIFICATIONS Brand Cassida Model Tiger 1300 Class Small Business to Light Commercial Counting speed Up to 1300 bills per minute Sorting speed Not applicable does not differentiate between denominations of notes being counted Hopper capacity 250 new bills Stacker capacity 250 new bills Error Detection Automatic Double , Half , Chain and Note size detection Operating modes Counting, Adding, Batching, and Add Batch Note size range 100 x 50mm to 178 x 77mm Note thickness 0.075mm 0.15mm thick will not count heavier card stock Counterfeit detection
