PRODUCT DESCRIPTION

Cassida 6600UV Currency Counter with Ultraviolet Counterfeit Bill Detection The Cassida 6600UV Currency Counter is a Top, Front Loading Currency Counter with an Intelligent Bill Density Recognition System that eliminates time consuming stops common in conventional Bill Counters. An innovatively engineered mechanism combines the smooth counting of a Back Loading machine with the convenient Hopper of a frontloading machine. It is capable of counting up to 1500 bills per minute with a Hopper Capacity of up to 400 new bills. Operating Modes include Count, Add, Batch, and Add Batch. The Cassida 6600UV Bill Counter with Ultra violet Counterfeit Bill Detection can detect issues with bills as well including Double, Half, Chain, and Size Note Detection. The 6600 utilizes both UV Ultraviolet marking detection and Infra Red technology for maximum currency counting accuracy and for half and double note detection. Cassida 6600 Currency Counter Overview Counting Speed Up to 1500 bills min.
