PRODUCT DESCRIPTION

Widmer PTR 4000 Totalizing Time Clock The PTR 4000 time clock automatically calculates time totals on a daily, weekly, bi weekly, semi monthly and monthly basis. It features an automatic card feed which allows the employee to simply drop the time card into the slot on the top of the machine and it will automatically print in the appropriate spot, thus avoiding the overpunch problem. The Pyramid PTR 4000 automatically adjusts for leap year, daylight savings and short months. You'll never have to reset the machine manually again. It can be set for a 12 hour clock, 24 hour clock and even 100th hour times as you desire. This is a great machine for business with up to 100 employees and can handle multiple work schedules.

FEATURES Easy to read time display. Calculates running and period totals. Totals time automatically on each out punch. Automatic card feed, no over punches. Provides legible, permanent records.
