PRODUCT DESCRIPTION

EASY LAM School Budget Laminator All of the features a school needs without the high price tag Available in December 2009. Place Advance Orders Today For years, teachers, librarians, PTO presidents, and small print shops have asked for a high quality 27 inch roll laminator with heated rollers, simple controls, and a reverse function without breaking the bank. This laminator has arrived. The EasyLam Budget 27 inch School Laminator is the least expensive high quality laminator of its kind on the market. The EasyLam Budget is made in the USA with features that include Heated Rollers which provide a clear lamination at a lower melting temperature saving wear on your equipment and shortening warm up time. 27 inch Laminating Width accommodates standard 1 inch core laminating film that is 27 inches in width or narrower Hint Save money by using 1.2 mil CP 25 inch Laminating Film . Adjustable Thermostat and the LCD Temperature Readout make adjusting the operating temperature fast and simple. Reverse Feature provides an easy fix if a wrap around occurs. See our support page if you have a wrap around or film wrapped around the laminating rollers . Adjustable Supply Roll Tension makes it easy to adjust the tension of your laminating to get a flat, clear lamination on your first try. Simple controls for the motor, forward reverse, and heat. These controls are much easier to use and more intuitive than many of the more confusing laminators on the market. Laminates 1.2, 1.5, or 3.0 mil laminating films. 1 Year Warranty. The EasyLam Budget is made in the USA and is backed up by a manufacturer s warranty against manufacturing and part defects. Compare this to a 90 day warranty for one of the other 27 inch heated roller school laminators popular in many schools. Don t forget to buy a laminator stand and film for your new laminator
