PRODUCT DESCRIPTION

The Practik Precision Material Cutter is an ingenious, economical cutting solution, offering a standard of straight, square and clean cutting that is impossible to achieve with a hand held knife and straight edge and requires no special skills. The innovative design of the Practik guarantees straightness to be within 1mm 0.039 over its whole length. Using Practik Sheet Material Cutters alone or with the BIG bench could not be easier, just place the cutter bar on the material to be cut, align it with the image registration or crop marks, depress the cutting head and push or pull it along to cut. Whether used alone as a moveable cutting bar or in conjunction with the Keencut BIG bench to create a superb cutting table. The Keencut Practik large format cutter is an outstanding general purpose material cutter and precision trimmer. A Practical choice for cutting graphics, photos and signs mounted on foam centered boards. Accuracy to within .03 inch guaranteed over the full length of the cut. For an even more precise cut add the Lift Hold Mechanism to your work Bench allowing you to turn your existing work surface into a precision cutting station. The lift and hold is recommended for cutters up to 80 inch

PRODUCT FEATURES

Comes with wall-mounted brackets for storing cutters out of the way.

Ergonomically contoured cutting head allows operator to comfortably push or pull it along to cut.

Fitted with two full-length rubber strips on the underside that grip the surface without marking. Includes 100 standard medium duty blades that can be changed in seconds with no tools.

Specifically designed to cut large format graphics, pop ups, signs, plastic panels and much more.
