PRODUCT DESCRIPTION

Dahle 20434DS Level 6 High Security Deployment Paper Shredder For destroying Top Secret documents in the field, The Dahle Deployment Shredder is both portable and rugged. This High Security deployable shredder is designed for use outside the office environment and is approved by the NSA for the destruction of Top Secret data under NSA CSS Specification 02 01 standards. The shredder itself features two solid steel cutting cylinders that will reduce paper to a 1mm x 4.7mm particle size. A wooden cabinet and recessed handles make this machine durable and easy to lift. The sliding drawer catches the shredded waste and allows for easy disposal. Moving this machine from one place to another couldnt be easier Just place the shredder inside the high impact plastic case and ship to any destination. Inside this case, the shredder is protected by foam padding and an airtight and watertight seal to prevent corrosion. Rolling casters and a pull strap are included and removable for easy transportation. As the U.S. continues to face security threats on a global level, Dahle will continue to offer solutions without compromise to operation or dependability. This machine is perfect for military, federal, state or local governments as well as Department of Defense contractors engaged in projects where National Security is an issue. Whatever is put through this shredder is guaranteed to never be read again.
