PRODUCT DESCRIPTION

ERC SHARK Mixed Bill Counter Money or Cash Sorter Currency Discriminator Assorted Cash Value Counter No presorting of currency by denomination of bills is necessary with the ERC SHARK Cash Counter and Sorting Machine. Simply choose your settings, place the bills in the hopper and go. The ERC SHARK Currency Counter counts the bills you want to count and automatically diverts the others to the large 200 note capacity pocket. Everything is performed quickly and accurately with no need to stop midway through the process. The ERC SHARK Cash Counting Machine features advanced high speed denomination recognition technology, four modes of counting bills, preset batching and a blazing 1,000 notes per minute speed. Your Logical Choice When Speed and Accuracy Count Most Times have changed...and so have your needs. Saving your staff time and your company money are more important than ever. The all new ERC SHARK Cash Discriminator features advanced high speed denomination recognition technology, four modes of counting bills, preset batching, a big 500 note Hopper, 100 note Pocket, 200 note Stacker, and a blazing 1,000 notes per minute speed. Not only do you get this superior speed and performance, the new ERC SHARK Money Sorter also offers you the accuracy, the functionality, the down to earth simplicity of operation, and the quality, durability, and after sales service that comes with every product . This is the exact same machine chosen by commercial banks and financial businesses everywhere. SIX COUNTING MODES Mixed Mode Identifies and counts mixed denomination bills, quickly and accurately. Single Mode Counts a specific denomination. Different denominations are fed to the pocket. Separation Mode When a bill of a different denomination is detected, the machine temporarily stops. When bills are removed from
