### PRODUCT DESCRIPTION

U.S. Paper Counters SHARP SHOOTER II In Line Counter and Tab Inserter with Spoilage Counter This is a free standing counter tabber that accurately counts and inserts paper tabs into the delivery pile of presses, sheeters, paper board machines and paper converting equipment with receding pile deliveries. The Sharp Shooter II features the ability to count and tab acceptable material, while flagging spoilage material by means of a red dye marked tab at the beginning and end of each spoilage group. Setup is a breeze with it s pedestal, adjustable head height and various tape chute lengths. Predetermined tabbing is as easy as pushing a button. A micro switch, electronic coupling pick up or optional infrared reflective opto sensor, attached to your equipment, creates a pulse or input, representing a single sheet count to the electronic control unit. Maximize press time, profit and customer satisfaction with efficient and affordable in line quantity control from U.S. Paper Counters. Standard Features Counting speeds equal to your equipment Tabbing at various batch increments Panel and remote control start stop count for spoilage Electronics with memory and capacity to operate two tabbing heads High speed batch selector Count Erase Total batch count Reset switch for total and batch count Variable tape length control Variable knife cut delay Back lit 2 X 20 character line display Pedestal base 16 40 cm standard tape chute Touch pad user interface Options Infrared reflective opto sensor 90 degree angle tape chute Custom tape chute lengths Various pedestal heights available Swivel bracket mount included with 90deg chute Distribution box allows 3 or more tabbing heads to be operated by one control unit Additional tabbing head Custom programs available
