### PRODUCT DESCRIPTION

Acroprint ES700 Atomic Time Recorder The ES700 is new and improved now featuring atomic accuracy The versatile ES700 time stamp can be used to support time and attendance, job costing, and document control and is designed for a professional office environment. ES700 Atomic Electronic Time Stamp at a glance Accurate and reliable The Atomic ES700 automatically synchronizes with time codes transmitted by the National Institute of Standards and Technology and smoothly handles date changes and Daylight Saving Time adjustments. Thanks to internal battery backup, the clock maintains correct time even during power outages. The ES700 is versatile and flexible, with over 150 possible print configurations and 13 preset messages in your choice of four languages, the ES700 easily supports a wide variety of time attendance and document control applications. This time stamp accomodates virtually any time card, document or form, offering adjustable print font size, your choice of automatic, semi automatic or manual print operation, and left or right hand print. The power supply is switchable from 120V to 240V. Simple and secure The easy to read front mounted LCD display indicates the date, time and day of week. The handy clear window and an LED light make it a snap to align cards and documents perfectly every time. Protection with a user selected password means your programming cannot be changed without your knowledge. Flexible printing options The ES700 time clock provides automatic, semi automatic or manual print operation on left or right hand time cards., and on any document. Over 150 print configurations are available selectable hour format 12 or 24 and choice of standard minutes, tenths or hundredths and even seconds. This versatile document stamp also offers thirteen preset messages RCVD, SENT, IN, OUT,

### PRODUCT SPECIFICATION
