PRODUCT DESCRIPTION

Ribao DC 150 Discriminating Currency Counter Mixed Bill Counter, and Value Counter The Ribao DC 150 Discriminating Currency Counter is a mixed and bill value counting machine equipped with FOUR METHODS of Counterfeit Bill Detection Ultraviolet, Metal Thread, Magnetic and Infrared. This Currency Discriminator also has 4 different counting modes. Single Mode Counts and separates one denomination from others. Orientation Mode Will process bills in which the front is facing the same direction e.g. right side up to the main pocket. Mixed Mode Identifies and counts bills of mixed denominations. Face Mode Will process and sort all bills based on the direction the face of the bill is pointing. e.g. All bills facing front will go to one pocket, and all bills facing backwards will go to the other pocket. Counts up to 1200 bills per minute. Mixed money is counted at 800 bills per minute. Hopper holds up to 500 bills. Stacker holds up to 200 bills. Reject pocket holds up to 100 bills. Count modes include single, orientation, mixed and face. Features serial number printing and full report printing options. Software upgrade available at no charge for new bills. The Ribao DC 150 can be ordered for Most World Currencies . Powered by a 120v motor. Voltage 120V U.S. 240V International Counts Mixed Currency and Sorts the Bills into Two pockets without Presorting
