PRODUCT DESCRIPTION

Cassida 3310 Counterfeit Detector Reliable and versatile Traditional counterfeit detectors only check for magnetic security marks. The Cassida 3310 checks for magnetic security marks, and also verifies Infrared security marks which are the most advanced security feature of US bills. Infrared security marks are not known to have been counterfeited. Easy to Use The Cassida 3310 is a fully automatic detector that does not require any bill authentication knowledge by an operator. The Cassida 3310 instantly verifies the authenticity and the denomination of the bill. A grand total of authenticated bills is automatically displayed on the screen, and a detailed report with bill count by denomination can be easily viewed anytime. Ideal Retail Solution With its ultra compact size, the 3310 is perfect for locations where space is at a premium. The bill verification speed of less than one second guarantees your customers a smooth and undisrupted cash transaction. Technical Specifications Verification types Infrared security marks Magnetic ink Verification speed Less than 1 second bill Features Totals by denomination Grand total Display type Large LED Weight 1 lb Dimensions 5 inches x 6 inches x 3 inches Power source 110 220 VAC Warranty Information Cassida currency counters are warranted for a period of one year parts and labor. Units must be returned to factory for servicing. Inbound shipping charges are the users responsibility. Repaired units will be returned with shipping prepaid. Warranty does not cover routine cleaning or other user maintenance requirements.
